

# Quartets Rules

## Rules

Quartets is a classic family game. Variants include Go Fish and Happy Families.

## Rules

Quartets is played with three or more players, with the aim to win all the quartets (sets of four). Each card has a number and letter (1A, 1B, 1C, 1D, 2A, 2B etc.) in the top right or left corner of the card.

The cards are shuffled and dealt evenly between all the players and the cards get held face up in a player's hand. The player to the dealer's left starts by asking another player if they had a certain card (example, card 4C) which would help the player create a quartet. If the player does have the card, then they hand it over. If the player doesn't, then it becomes her or his turn to ask.

When a quartet is created, or a complete quartet was dealt, then the cards creating the quartet are placed in front of the player.

The game ends when all the quartets have been created. The winner is the person with the most quartets.
